Enrique Iglesias, I Will Survive

You like to think that you'll be the only one who understands me with it
And you tell everyone that I can't live without you even for one day
But who gave you the right to talk about the way I feel so deep inside
Now I realize you were never mine, you were never right
Baby you will find
I will survive
I'm gonna make it through
Just give me time
I will get over you
I will survive
No matter what you do
Just need to see I will get over you
Cause baby we'll survive
Cause baby we'll survive

What makes you think that I don't see the way you made a fool of me
To laugh behind my back ??
Now I realize you were never mine, we were never right
Baby you will find
I will survive
I'm gonna make it through
Just give me time
I will get over you
I will survive
No matter what you do
Just need to see I will get over you
Cause baby we'll survive

I will survive
I'm gonna make it through
I will survive
I will get over you
Cause baby we'll survive
