## Enrique Iglesias, Let Me Be Your Lover (FT. Pitbu

I'm falling in love with party, friends and alcohol I'm falling in love with party, friends and alcohol We falling in love with party, friends and alcohol That's why I'm falling in love, falling in love with you tonight

Spent my whole life waiting for a girl like you Baby tell me what I gotta do We can leave this party, back to my room You could show me a thing or two

'Cause I've been spending all my money On these pretty girls and alcohol But honey they ain't got a thing on you You shoot me once, you shoot me twice Now take me to your paradise You know there's just one thing left to do

Let me show you I'm talking about

If you let me be your lover I'd do anything for you I could rock you like no other Oh oh come on girl get loose

Baby shake that body, now turn around Slow motion for me now (oh yeah) Girl you got me going I'm going down Yeah you know what I talking about

'Cause I've been spending all my money On these pretty girls and alcohol But honey they ain't got a thing on you You shoot me once, you shoot me twice Now take me to your paradise You know there's just one thing left to do

Let me show you I'm talking about

If you let me be your lover I'd do anything for you I could rock you like no other Oh oh come on girl get loose

I'm the mailman I deliver Take her to dinner Conversate a little Then I split her down the middle like Miam's river I like my women one up one down Kerry Kittles Here's a riddle What's the opposite of walk? Run What's the opposite of go? Come That means I hit it, I run, you come Fe fi fo fun Tear the club up! All my sexy ladies that came to lose their minds Put you hands up high Tear the club up! She ain't looking for a man, she is just looking for a really good time. That's right. Tear the club up!

Let's drink that bottle and forget what we doing tonight Tear the club up! I ain't trying to be your lover for life just your lover tonight That's right.

If you let me be your lover I'd do anything for you I could rock you like no other Oh oh come on girl get loose /2x
