

Enrique Iglesias, Too Good For Me

Rock rock rock

Swing baby swing, you're playing with my can
And it feels right
Jump baby jump, I'm one step behind
And it's alright
You got one mile to go, and your tank is still full
And you don't stop (no, you don't stop)

Chorus

You say, hold on tight, for the ride
Ya, you're my destination
And you rock me, all night long
Yeah, you push me, all night long
Yeah, you love me, all night long
You rock me all night long
Yeah yeah yeah

Come baby come, you got me blowing up
And it feels right
Slide baby slide, you're not the girl
To put up a stop sign
A bullet to my head and they're driving me insane
And they don't stop

Repeat chorus

Live baby live, there for today
Fly baby fly, let's get away
I don't care what they think, what they say
And you know, yeah you know

That you rock me
Yeah, you rock me, oh yeah
De de de de rock me, all night long
Yeah you push me, all night long
Yeah you love me all night long
You rock me all night long X 3
