Entombed, Contempt

Before my eyes - lies nothing but lies I cannot believe the scenes taking place beneath our skies

It makes me wanna do my time in a song or on the silver-screen humanity is the biggest cancer ever to be seen

Before my eyes - lies civiliesation ancient and wicked destruction in creation

No matter how low you are there's always someone to look down upon and it goes on and on

Emotionless - obscene but a human life don't mean anything to me it's merely a seed of insanity
