

# Entombed, Full Of Hell

I've got a 24-lane highway  
Going straight thru my head  
A peace of mind like a brainstorm  
And thoughts that knocks me dead

I've got sympathy for the devil  
And demon is in my vein  
I'm organized chaos  
But don't call me stupid I'm insane

At my worst I'm at my best  
Wide awake but let sanity rest  
I'm full of hell  
All kinds of hell

I've got a heart like a graveyard  
They're dying to get in  
I'm from alot of different places  
And I'm full of hell and sin  
I'm offended by human nature  
Was told the truth by someone who lied  
There are times when not being human  
Would be a source of inner pride

In my heart and deep within  
I've got it's fire under my skin  
I'm full of hell  
All kinds of hell
