

Epica, Universal Death Squad

We embrace
Judgement day
We embrace
New inventions
Find your grace
In defeat
We embrace
New intentions
Forced on us
By decree

We are the ones to change the world now
Still in control of all machinery
We claim the right to pull the trigger
And damage your image of honor

Inventing, improving, creating
Existence embrace the technological remedy

Robotic legions stand in line to carry out
The retribution and effects of this advanced technology
All new inventions have to pay
They have to fight their way to judgement day

Technological tragedy is near

We are the ones that rule the world now
You are entrapped by blind inanity
There is no way that you'll revoke your decision
Now look for distraction

Inventing, improving, creating
Existence embrace the technological elegy

Robotic legions stand in line to carry out
The retribution and effects of this advanced technology
All new inventions have to pay
They have to fight their way to judgement day

Technological force

We are the enhanced
Natural leaders
Turning righteous man
Into deceivers

Schemes of the mind
Absence of soul
Symbol of the triumph
Over human race
Cold-blooded kind
Minds are controlled
Doomsday has arrived
There is no escape

I am forever the snake devouring it's tail
In search of eternity

We embrace
New inventions
Find your grace
In defeat
We embrace
New intentions

No one stands
In our way

Inventing, improving, creating
Existence embrace the technological misery

Robotic legions stand in line to carry out
The retribution and effects of this advanced technology
All new inventions have to pay
They have to fight their way to judgement day

Technological times shall flourish

Fight your
(We are the leaders)
Way out
(Never displease us)
Show no remorse
