

# Erasure, Love The Way You Do So

On &&& on &&& on, here's the break of dawn  
coming through the window heart  
pull yourself a chair up love

On &&& on &&& on, quiver like a reed  
let yourself a go go old man  
honour me a solo young one

Careful not to give yourself away  
There is still tomorrow &&& a heart felt meaning

When you get that feeling you will recall  
A night of love in motion

We shall lie Warm inside  
Quite at ease Watch me glide  
Love the way you do so  
We shall lie Side by side  
Here &&& now Talk in turn  
Love the way you do so

Time is rolling on, blending with the mind  
Love the way you tease me heart  
Tear another layer off love

Listen to the stillness of the day  
Drawing ever closer like your heart is beating  
And when I hear it beating I will recall  
A night of love in motion
