

Erik Faber, Desire By Erik Faber

I told her to stay awake,
didn't know the games she were playing.
The patch she cut for me,
didn't know how it would be
Oh, am I weary, is it only in my head?
oh how I wish that she would stay

CHORUS:

She, she's taking me higher
I only desire
she's everything I am
She, she hurts me like fire
but I want the wire
she's everything I am

I wonder, was I too late
trying to set everything straight
I wonder what would I do
trying to put my mind off of you
Oh, am I weary, is it only in my head?
Oh, how I wish that she would stay

CHORUS

Am I wary, is it only in my head?

how I wish.....

She, she's taking me higher
I only desire
she's everything I am
She, she hurts me like fire
but I want the wire
she's everything I am
I am..
