Erykah Badu, One

Buzilla baby

Catch a four leaf clover Maybe we'll get over Try and love might come your way

Here I am, on a cloud
If you want me take the chance try love out loud
As I drift through the sky
Shooting cupid's arrow you just might try
So don't miss baby, take your time
You only got one chance, yes

1 - catch a four leaf clover
Maybe we'll get over
Catch a four leaf clover
Love my getcha over
Catch a four leaf clover
Maybe we'll get over
Try and love might come your way

Like the way I am free Going places, being things I wanna be Settle down, is oh so hard

But I will pray you that one chance So pick the one right one And don't miss it, take your time You only got one chance, do wee ooh wee ooh

Repeat 1

Free as a bird, yeah, yeah
To catch me is to catch a leprechaun
Hold on to your rabbit's foot
I just might be yours forever

Repeat 1

Catch a four leaf clover (catch a four leaf clover) Catch a four leaf clover Love might getcha over Catch a four leaf clover (catch a four leaf clover) Try and love might come your way Maybe we'll get over (repeat til end of song)
