## Eso-Charis, Spirit Of Revival

Ressurection fall on us, ressurection roll over us This is our reality to pursue your hand Righteousnes, you arm us with your strength We come trembling from our strongholds Understand, discern the spirits This is our quest to take over enemies, taken back what's already ours Our conquest Holy spirit, take this land and God please crush all hate, overtake our hearts Lord, let your love pour down harder So let your love pour down harder Let the rivers run wider Let the rivers run wider Let the fire burn brighter Spirit of revival
