

Eternal Decision, Strength

All my life I've lived my way
No matter what was said to me
I fought to be a prideful man
Independence in my head to long

When I am weak, I am strong
In my weakness, I find true strength
In my weakness, I am strong for you

Ostracized I've lived with pain
I've thirst for more than worldly gain
Thorn in my flesh has broken me
My prideful heart is released for Him

Chorus:

Flesh and blood the old nature dies
Shed my skin of this selfish pride
Cast down but not forsaken
I find my strength in life from you
