

Europe, Got To Have Faith

The race is on
I found my way
Something has changed since I've been away
The fear is gone
and I can't wait
I feel the rut, still got dues to pay

Well I had enough
Gonna stand up straight
Rebuild my life
Well you gotta have faith
and it will be tough
gonna fight each day
'til I'm back on top
Well you gotta have faith

Full speed ahead
I waste no time
Now I know how to live my life
I've been knocked down - come back around
It put some soul in this heart of mine

Well I had enough
Gonna stand up straight
Rebuild my life
Well you gotta have faith
and it will be tough
gonna fight each day
'til I'm back on top
Well you gotta have faith

I get the feelin'
I can go that extra mile
I get the feelin'
I can reach that open sky
I get the feelin'
Things will never be the same
I get the feelin'
That I can WIN again!

Well I had enough
Gonna stand up straight
Rebuild my life
Well you gotta have faith
and it will be tough
gonna fight each day
'til I'm back on top
Well you gotta have faith
Well you gotta have faith
Well you gotta have faith
