

# Eurythmics, Beautiful Child

Something that I said  
Made you wear a frown  
The way you hang your head  
Has made the tears come down

But don't you wear a sigh  
My beautiful child

You know it doesn't burn  
When you touch the sun  
So don't be concerned  
My golden one  
You're gonna reach the sky  
Fly ...  
beautiful child

There is no other place  
The human race  
Is running out of space  
There is no better love  
And human love  
Is what it takes

And I'll be at your side  
When you're falling down  
You'll be feeling fine  
When you hit the ground  
So don't slip away  
Stay ...  
Beautiful child
