

# Exodus [Thrash Metal], Culling the heard

They're everywhere and everyplace  
Scum of the human race  
Sticking to my skin like a rash  
Society's their scapegoat  
But I am the antidote  
And it's time to take out the trash  
The world's a big cesspit  
Of puke and piss and dog shit  
But I ain't gonna be its whore  
Follow and I'll lead the way  
Predators are now the prey  
Results like these are hard to ignore  
You may think I'm insane  
Or maybe just a little absurd  
What you don't understand is  
I'm just culling, I'm just culling the herd  
I know I'm not the only one  
Who thinks that something must be done  
To clean the garbage up off the street  
Dare to look me in the eye  
I bring the truth, never lie  
To me, they're just another piece of meat  
The punishment will be swift and sure  
For this disease, I am the cure  
No problem, the doctor is in  
My prescription for a better life's  
A raffle or a razor knife  
Remove whoever's under your skin  
But please, don't call it a murder  
Cause murder's such a dirty word  
What you don't understand is  
I'm just culling, I'm just culling the herd  
When will everyone realize  
Some people should be sterilized  
Their tubes are only fit to be tied  
All they do is shit and breed  
To ignorant to ever succeed  
Stupidity should not be multiplied  
Lend them not a helping hand  
Or the future will be damned  
The world will take a turn for the worse  
The human race should be purified  
Or we'll all be mongrelized  
Implement the cure for the curse  
You may think I'm a madman  
Or maybe just a little disturbed  
What you don't understand is  
I'm just culling, I'm just culling the herd
