

F.I.R, Our Love We Had (wo Men De Ai English Ver.)

Reminiscing 'bout my blurry childhood
Clouds floating through beautiful blue sky
At that time you said,
"I want to hold your hand;
Taking you with me to end of time."
Afterward I'm scared to look up at the skies
It's like my world has lost their colors
Life after that day
I've forgotten to breathe
Oh my tears no longer here, Here in my eyes.

Chorus:

Our love we had; Has gone and won't come back
Until right now; Silently I'm here waiting
Our love we had; I realized,
It's a burden for you
It's forever; It's hard to let go
Of the last warmth...

Your given warmth

Da da da

Afterward I'm scared to look up at the skies
It's like my world has lost their colors
Life after that day
I've forgotten to breathe
Oh my tears no longer here, Here in my eyes.

Chorus:

Our love we had; Has gone and won't come back
Until right now; Silently I'm here waiting
Our love we had; I realized,
It's a burden for you
It's forever; It's hard to let go
Of the last warmth...

Your given warmth

Don't ask me if you still love me
Right now I wish for my own freedom
Far away from the constrain lonesome world
No longer alone OH.

Chorus:

Our love we had; Has gone and won't come back
Until right now; Silently I'm here waiting
Our love we had; I realized,
It's a burden for you
It's forever; It's hard to let go
Of the last warmth...

Your given warmth
