

Fady Maalouf, Blessed

Long before you came I knew
Somehow life would bring me you
Long before you spoke my name
I believe you knew I missed you

I love you more than words can say
I love you, there's no other way

For the first time in my life
I am someone great
For the first time I've come home
I have found my fate
I believe it when I see you smile
That I'm blessed
I'm blessed, I am
I'm truly blessed

I believe it when I see you smile
That I'm blessed
I'm blessed, I am

For all the nights to come (and) all days, you'll be inside my heart
Always

For the first time in my life
I am someone great
For the first time i've come home
I have found my fate
I believe it when I see you smile
That I'm blessed
I'm blessed, I am

I am someone great
For the first time I've come home
I have found my fate
I believe it when I see you smile
That I'm blessed
I'm blessed, I am
I'm truly blessed
