

# Fahrenheit, Chains N' Cellars

Following the dark side of desire  
Saw you in the myst with your heart on fire  
With my loaded gun, ready for action  
Eye to eye contact, instant attraction

C'mon baby, let's get started  
Little time to get to know each other  
The night is young and my body is hungry  
Show me what you've got to make this man feel manly

Come with me, don't be afraid, come on!  
Down to my room of pleasure  
You'll feel like never before  
Under my spell of Chains n' cellars

Felt it before, premonition of danger  
Evil disguised with the face of an angel  
110%, pure satisfaction  
What happened that night was a chain reaction

C'mon baby, let's get started  
Little time to get to know each other  
The night is young and my body is hungry  
Show me what you've got to make this man feel manly

Come with me, don't be afraid, come on!  
Down to my room of pleasure  
You'll feel like never before  
Under my spell of Chains n' cellars
