

Faith No More, Absolute Zero

Can we begin at the end to save some time?
Dead center
Point blank
Together
The clock is ticking
You have no authority here
Float like a dead man down the river
And there are no streets in this city
Et cetera is my worst enemy
It's low and I know it all will go
To the big hand of the god damned
You're here
Red dot
And now you know where not to go
The middle ground is absolute zero
What can be found at absolute zero
Can we begin at the end to save some time?
Et cetera is my worst enemy
It's low and I know it all will go
To the big hand of the god damned
The big hand of the bald man
The middle ground is absolute zero
What can be found at absolute zero
A happy end is absolute zero
Nobody wins an absolute zero
Worse than nothing
Nothing...
