

Faith No More, Arabian Disco

Has it been so long?
Do you think we know?
Do you think we care?
Die...for the here and now
Do you remember why?
Do you remember how?

Face....out
Stick your chest....out
Stomach....in
That's right

Do you really know
Where the harems go
In the desert snow? Hail,
An oasis dream doesn't really seem
To mean a thing when you're out cold

So, hands....up
Put your guards....up
Feet....down
Up....down
Forward....march
Left....right
Cold....cold
I feel cold
