

Faith No More, The Big Kahuna

What's it to you?
Let's make it new
Let's make it die, make it die
There's nothing wrong
It's lived to long
And the plesure is yours and mine

You conceived me now you wanna kill me
It won't be easy, hey I wanna be me
You took me with you, now I'm gonna kill you
I want my mom!!!

What's it to you?

What's it to you?
Cutting through you
It's still alive, still alive
This thing between us
???
And it's chewing from the inside
