

# Fall Out Boy, So Much (For) Stardust starring Jim

I'm in a winter mood  
Dreaming of spring now  
Burning myself down  
Burning myself down  
Burning  
I feel like something that's been stretched out  
Over and over again  
Until I'm creased and I'm about to break down the middle  
Split me right down the middle  
Right right down the middle yeah

The stars are the same as ever  
But I don't have the guts to keep it together  
Stuck in the permafrost

Life is just a game maybe  
I'm stuck in a lonely loop my baby

So much for stardust  
We thought we had it all  
Thought we had it all

I need the sound of crowds or I can't fall asleep at night  
Can't take my thoughts and I am awake  
Another year of possibilities left unwrapped  
Like gifts the day right after Christmas past  
And I'm pretty positive my pain isn't cool enough

Like a sledgehammer to a disco ball  
Crushing all my low low low lows  
Ache it til you make it

I think I've been going through it  
I've been putting your name to it

In another life  
You were my babe  
In another life  
You were the sunshine of my lifetime  
What would trade the pain for?  
I'm not sure

I used to be a real go-getter  
I used to think it'd all get better

So much for stardust  
We thought we had it all
