

Fallcie, Parasites

Mother
Stop crying
We are burying

Ourselves

Greediness
And lust for power
Hunting
For bones and pelage
Digging
And raping soil
I know we never stop!

Grief smell
Is all around us
Deadborn
But still alive
Settling
All over planet
We are the parasites!

No promise
For tomorrow
Only
For cold and sorrow
Raging
Inside the depths
Of our rotting souls!

Last breath of slowly dying world
The billions lives were sold
For price that was untold

We make the rivers full of waste
The ocean of disgrace
Not even sacred prayers
Can save us from ourselves
Vacuum behing the holy eyes
Corruption in the skies
From paradise to wasteland
We are the deadliest parasites

We doomed the planet to suffer
We're doomed to dissapear

Mother
Stop crying
We are burying
Ourselves

Mother
Stop crying
Your children
Are dead

Polluted air rips your lungs like a blade
We are the predators that turn to victims
Everything that we create set aflame
Your death is coming from poisoned water

Last breath of slowly dying world
The billions lives were sold
For price that was untold

We make the rivers full of waste
The ocean of disgrace
Not even sacred prayers
Can save us from ourselves
Vacuum behind the holy eyes
Corruption in the skies
From paradise to wasteland
We are the deadliest parasites.
