(Oooooohoah)
Ooooah baby
Come On!

I've Been hidin' for quite a while
I've been discussing my emotions
I'm gettin tired of you lyin
So now I'm going with an ocean

I've been working so hard
I've been trying to forget it
But deep in my soul there's no doubt
If we make it happen
Then We'll never regret it
We just gonna let it all out

Everytime I try to deny what I'm feeling for you
There's a voice inside my heart telling me what to do
I've been eyed and I lied and I know that it's true
You're the only one for me and I always be crazy 4 you!!

Oh oh yeah
aoh baby!

I hate it when you look so fine
I love it when you thrill me
You're sendin' shivers down my spine
My mind is bout to kill me

Baby it's been so long
since the last time I felt it
It's something I can't live without
If we make it happen
Then we never regret it
We just gonna let it all out

Everytime I try to deny what I'm feeling for you
There's a voice inside my heart telling me what to do
I've been eyed and I lied and I know that it's true
You're the only one for me and I always be crazy 4 you!!

I've been working so hard
I've been trying to forget it
But deep in my soul there's no doubt
If we make it happen
Then We never regret it
We just gonna let it all out
Baby it's been so long
since the last time I felt it
It's something I can't live without
If we make it happen
then we never regret it
We just gonna let it all out

Everytime I try to deny what I'm feeling for you
There's a voice inside my heart telling me what to do
I've been eyed and I lied and I know that it's true
You're the only one for me and I always be crazy 4 you!!
