

Fame Factory, Three Wishes

When you're low and feeling down
Just call my name and I'll be around
When you're life is too much for you
Close your eyes and think of me

Cause baby, you're not asking for much
Just a little love and a little attention, yeah

(Chorus)
Cause I got three three wishes, baby
All I want is to share them with you, yeah
Cause I got three three wishes, baby
It's so simple
Too good to be true
Three three wishes

And if you need somebody to ----
I would be riding for you
And if you can't stop tears from fall
Falling down, right to the ground

Cause baby, you're not asking for much
Just a little love and a little attention, yeah

(Chorus)
Cause I got three three wishes, baby
All I want is to share them with you, yeah
Cause I got three three wishes, baby
It's so simple
Too good to be true

Love, keep stunning my love
Keep stunning, keep
I'm going like a rolling stone
Like a rolling stone
When you're lost you can find a way home

You're not asking for much
Just a little love and a little attention, oh oh, oh yeah

(Chorus)
Cause I got three three wishes, baby
All I want is to share them with you
Cause I got three three wishes, baby
It's so simple
Too good to be true

Cause I got three three wishes, baby
All I want is to share them with you
Cause I got three three wishes, baby
It's so simple
Too good to be true
Three three wishes
