

# Faspitch, No Holding Back

Blue City don't be late,  
Everything's going our way today.  
I'm getting stoned on the first try,  
I'm getting stoned tonight.

Blue lights,  
This cigarette is breaking me, breaking me  
But it still feels right, it feels right

Step down from these blue lights,  
All you sinners save yourselves tonight

Step down from these blue lights

I think I'm going out of my mind  
I can't breathe this time  
Gotta find my way out today, out today

Blue lights,  
This cigarette is breaking me, breaking me

Moonlight marks these corridors,  
Step down, step down from my dimension

But it still feels good to me,  
But it still feels good

Are you still there holding out?  
Are you crazy, are you crazy?  
Don't give up, don't stop now, I can see you're almost there  
I think I'm going out of my mind  
Gotta find my way out today, out today

Destiny, you don't have to give a damn about me  
We'll take Blue City down(We'll take Blue City down)

I think my conscience is burning,  
I can barely stay alive

I got these feelings, these feelings I can't recognize

Don't blink or I'll be gone, blink and I'll be gone  
You're such a pretty girl

I think my conscience is burning,  
I can barely stay alive

I got these feelings, these feelings I don't recognize

Don't blink or I'll be gone, blink and I'll be gone  
You're such a pretty girl

I think my conscience is burning,  
I can barely stay alive
