

Fastball, Nowhere Road

There's trouble on the subway
There's something on the tracks
It's a dead end waiting and we can't go back
So take it to the highway
Head back and open wide
Step right up and take a nowhere ride

It's a nowhere road, it's a nowhere road
No matter where it goes, it's a nowhere road
It's a nowhere road and I'm tired
It's a nowhere road and I'm fired
It don't matter what they say
You can't get there going this way

From L.A. to Miami, and all points in between
Look outside you get the same old scene
You take it to the highway
You travel far and wide
Caterpillars carving up the country side

It's a nowhere road, it's a nowhere road
No matter where it goes, it's a nowhere road
It's a nowhere road and I'm tired
It's a nowhere road and I'm fired
It don't matter what they say
You can't get there going this way

It's a nowhere road and I'm tired
It's a nowhere road and I'm tired
It's a nowhere road and I'm tired
