

Faydee, Habibi Albi (ft Leftside)

look around
ready to make some babies
with the ladies
Leftside, Faydee

Habibi Albi
let me love you like you need
you deserve somebody
to treat you like a queen

when you come home
she's standing there naked
she said, baby hurry up
don't keep me waiting
she makes you feel good
that's my baby
you got it good
so, don't you waste it

she could be your lover
she could be your friend
she give you what you want
make you feel like a man
but you gotta be honest
don't trying pretend
don't give her any reason
to never trust again

Habibi Albi
let me love you like you need
you deserve somebody
to treat you like a queen

ana, ana bahlan fiki ana
Habibi Albi
let me love you like you need

it going down form the bed to the ground street
top one top one
girl deserve a crown
I will make boom when you girl go top one
get you deep another zone with deep ____
you fell what I mean when hit your G spot
no lie between your legs, full stream
you deserve better
let me start make you wet
when times get closer
keep you warm like a supergirl
you deserve the best, no take less
you're full of hopeness, you deserve happiness
like bird in the tree
living in a happy nest
fulfilling my dream with my queen
