## Fear Factory, Hands Up

Written & Drill Wilde, Kate Ryan & Drill Wilde

The first time I saw you I still remember when you passed me by Love at first sight that day in September when I was so shy

The way you smiled, it turned me around - You spin my life upside down And for a while time stood still - 'Cause I couldn't believe this was real

## Chorus

So put your hands up in the sky C'mon and celebrate our love tonight Yea put your hands up right into mine 'Cause baby love reigns divine

The first time I kissed you I still remember, I gave all I had (We were) out of control that night in September Yea we were bad

The way we held each other so tight - You made me shiver in sheer delight I felt the earth move as time stood still - No I couldn't believe this was real

## Chorus

Yea put your hands up in the sky - C'mon and celebrate our love tonight You gotta live one day at a time - 'Cause baby love reigns divine
