

# Feeling, Never Be Lonely

People in love get fast and foolish  
People in love get everything wrong  
People in love get scared and stupid  
People in love get everything wrong

At least they're not lonely  
At least they're not lonely  
Never Be Lonely

BBBBaby I think I'm going CCCrazy  
And why should I be sane without you

They tell me to fight it  
But they can bloody well just try it  
Ill never be the same without you

People in love get special treatment

People in love get everything wrong  
People in love their hearts get eaten  
People in love get everything wrong

At least they're not lonely  
At least they're not lonely  
Never Be Lonely

BBBBaby I think im going CCCrazy  
And why should I be sane without you

They tell me to fight it  
But they can bloody well just try it  
Ill never be the same without you

Never Be lonely
