

# Feist, Safety Brakes

You can never really stop from the start

The ending begins inside of your heart

And the people they love to remember your name

Its a (inaudible) just the same

ohoo ohoo ohoo

ohoo ohoo ohoo

Why did you leave when you returned

The pass is the future

Your future you'll learn

And (inaudible) I'll find

Do things once, you know you'll do them twice

Still I want this

With safety brakes

In a car that's quick

So we can split

ohoo ohoo ohoo

ohoo ohoo ohoo

Why (inaudible)

The smoke was so rich that they gave you a thrown

And turn the cruel hands into surprise

Few times a charm

Three times you'll pay the price

Still I want this

With safety brakes

In a car that's quick

So we can split

Still I want this

With safety brakes

In a car that's quick

So we can split

ohoo ohoo ohoo

ohoo ohoo ohoo

ohoo ohoo ohoo

The middle should live inside of your brain

Or suffer a moment

Try to refrain

I'm hoping alone just like when you we're a kid

Let's hop the fence and do like we always did
