Felix Jaehn, Eagle Eyes (feat. Lost Frequencies &

my eagle eyes, my my my eagle eyes

Marching down the street In my lightning feet And the shine's too fine to be real Fake it so i care for the glisten and the glare And now it's glare Something i'm starting to feel

my eagle eyes, my my my eagle eyes I caught a glimpse with my eagle eyes

Left it up to the great wide open
To find out the places i'd be
In my sleep they were growing all the time
And now they've grown too far from me

Didn't know how to wait out the ages So i wrecked my only way through Blind bravery forgets the wars it wages But i'll fight just to see if it's true

Left it up to the great wide open
To find out the places i'd be
In my sleep they were growing all the time
And now they've grown too far from me
