

# Fergie, Life Goes On

Every day when I wake up  
Tryna read my fortune on the bottom of my coffee cup  
But it seems like I never finish  
It's always half full, or is it half empty?  
Maybe it's my own superstition or a kind of self protection  
If it all looks bad, why would I wanna look ahead?  
Still sittin' here  
Just watching the sun go down, (down), down, down, down

Life goes on with or without you  
It's up to you what you're gonna do  
You could go or you could stay  
Who cares anyway?  
Life goes on with or without you  
Damn it baby, what you're gonna do?  
You could go or you could stay  
But who cares anyway?

Who really cares?

Every conversation gets me high on motivation  
Gets me craving of your own familiar situation  
Reach the unreachable, achieve the unbelievable  
In the midst of all the madness,  
Remember, life's beautiful!  
Still I'm feeling restless, thinking I should rest less  
Work more, play hard, ready for the encore  
Is this the kinda life I really wanna live for?  
In my heart I know, less is more (more)  
More, more, more, more

Life goes on with or without you  
It's up to you what you're gonna do  
You could go or you could stay  
Who cares anyway?  
Life goes on with or without you  
Damn it baby, what you're gonna do?  
You could go or you could stay  
But who cares anyway?

It's time to take this out of my hands  
Is it all gonna be worth it in the end?  
Cause it's safe here... in my comfort zone,  
Never stray too far from home  
But then again this way I'll never know,  
Maybe I should go?

Go crazy, go insane, go for everything  
Get the money, dollar bills in your wallet, say [?]  
Sign the dealy, make a mili, sound famili?  
The urgency is sounding the drilly for the ma-milli  
And then they really talk in Braille, actin' chilly  
They got me feelin' like an achilles, silly, silly, I mean, really?  
Really, really? Really really though?  
Really, really, really though?

Feel the vibration of the higher ground  
Love always leads to the highest sound  
Many conversations, people makin' speculations  
As to my procrastination due to my revelations  
And then they get fugazi  
You call yourself a rider  
You need to speed your loyalty up like Bugatti  
Baby don't underestimate my underdog mentality

We 'bout to race ahead, ambition on Ferrari
