Fermata, Cliffs

You've been telling me
To go over the cliffs
You've been warning me
To give up
I won't be missed
You've been begging me
To do away with all of this
Darling there's no way in or out
Darling there's no way in or out

I've been watching you
Ever since you've been in my midst
I've been wanting to touch you
But somehow I resist
I've been longing to kiss
The stars upon your lips
Darling there's no way in or out
Darling there's no way in or out

You've been begging me and begging me and begging me
To go over the cliffs
You've been haunting me and tempting me and bleeding me
Dear god do you weep at my tears
I've been locked in a room
I am telling the truth
With every one of my sins
Darling there's no way in or out
Darling there's no way in or out

Is it worth that leap into the night Is a chance worth taking a chance worth changing your life Is it worth that leap into the night
