Ferrick Melissa, The Meaning Of Love

This world is not ours

As much as we'd like it to be

It is someone else's

Something bigger

Bigger than you and me

But it's brought us together

Today

So we should take this thing we got baby

For everything

Everything it has to say

N' make it good

Make it happen

Hold the hand of love

Make it perfect

For just a moment

'Cause that's the meaning

That's the meaning of love

This world is not ours

As much as we'd like it to be

It is someone else's

Something bigger

Bigger than you and me

It makes you

Makes you whisper when no one's around

Makes you feel lost

But you got to put your feet

Got to put them back on the ground

N' make it good

Make it happen

Hold the hand of love

Make it perfect

For just a moment

'Cause that's the meaning

N' make it good

Make it happen

Hold the hand of love

Make it perfect

For just a moment

'Cause that's the meaning

That's the meaning

That's the meaning of love
