

Fiddler's Green, Rollin'

We keep the good times rollin' and make the party last
For all of us we're going to let those bad times pass
So kick off all your energy and lay it all on me
We get on like a house on fire, believe and you will see

I take you out you take me in that's how the ramblin' starts
It feels like on a roll we'll be, we lay down our cards
So kick off all your energy and lay it all on me
We get on like a house on fire, believe and you will see

Rollin' Rollin'
Lay your shit on me
Come on you rusty ramblers
I give you kicks for free
Rollin' Rollin'
Lay your shit on me
We get on like a house on fire, believe and you will see
We get on like a house on fire, believe and you will see

The girls are gay the boys they sing they've brought in plenty of booze
With Fiddler's Green they get along forget about their blues
So kick off all your energy and lay it all on me
We get on like a house on fire, believe and you will see

Here we go the game's still on we're running up the street
We don't let grow the fresh young grass right under our feet
So kick off all your energy and lay it all on me
We get on like a house on fire, believe and you will see

Rollin' Rollin'
Lay your shit on me
Come on you rusty ramblers
I give you kicks for free
Rollin' Rollin'
Lay your shit on me
We get on like a house on fire, believe and you will see
We get on like a house on fire, believe and you will see

Lay on me, Lay on me, Lay on me,
All you rusty ramblers, lay on me!

Rollin' Rollin'
Lay your shit on me
Come on you rusty ramblers
I give you kicks for free
Rollin' Rollin'
Lay your shit on me
We get on like a house on fire, believe and you will see
We get on like a house on fire, believe and you will see
