

Fifth Harmony, If these walls could talk

(Verse)

I can't make coffee, stare out of my window
Cause that's the place you left me, standing there
I hate this hallway for memories in the frames
Are a sobering reminder you're not here

(Pre-Chorus)

Yeah, I know I make mistakes cause my pride is in the way
You slipped right through my hands
But if you were here right now long enough to hear me out
I can make you understand

(Chorus)

If these walls could talk!
They'd tell you how much I miss you
How I'm trying everyday to forget you
How I'm crying every night cause I wish you were here with me
If these walls could talk
They'd tell you that I never deserved you
They know I never meant to hurt you
Baby, you would know it all
If these walls could talk
(These walls these walls these walls) Could talk (x2)

(Verse 2)

I lay in my bedroom, and dream of when I had you
When I wake the sad truth closes in
It's really over, you're not coming back, no
Don't think I can handle all of this

(Pre-Chorus)

Yeah, I know I make mistakes cause my pride is in the way
You slipped right through my hands
But if you were here right now long enough to hear me out
I can make you understand

(Chorus)

If these walls could talk!
They'd tell you how much I miss you
How I'm trying everyday to forget you
How I'm crying every night cause I wish you were here with me
If these walls could talk
They'd tell you that I never deserved you
They know I never meant to hurt you
Baby, you would know it all
If these walls could talk (2x)

(Bridge)

You'd believe that everything I say I mean
You would know how much I need you now

(Chorus)

If these walls could talk!
They'd tell you how much I miss you
How I'm trying everyday to forget you
How I'm crying every night cause I wish you were here with me

If these walls could talk
They'd tell you that I never deserved you
They know I never meant to hurt you
Baby, you would know it all
If these walls could talk
(These walls these walls these walls)
