

Film School, He's A Deep Deep Lake

All that she had to say
Calling you out, wake up alone
We trusted you
To make up our minds, colden our eyes
Quicken the time
Again
I couldn't lie
Everything's over sometime
I should've died
I'm alright
Again
Everything's right
Everything for a short time
Just as you like
Open your eyes, open your eyes
Everything for a short time
Dust in your eyes
I'm alright
Again
Fourty miles high, it's alright tonight
I'll go away
Did you lie alone? I'll go away
It's alright, you're down, I'll go away
