

# Fireforce, Thyra's Wall

Built to last forever  
A wall to save the land  
From east to west defended  
The Danes will make a stand

The realm must be defended  
The enemy can't cope  
Our soldiers will be safe and  
They are the kingdom's last hope

The enemy comes nearer  
And the tales that are being told  
Our leaders' deepest fears and we don't hold

Frozen in time - we can't defeat the ice  
Holding the line - the politicians lie  
We're defeated by ice!

Retreating to the north  
The wall is lost and gone  
The trenches here in Dybbol  
See the slaughter of our sons

The enemy comes nearer  
And the tales that are being told  
Our leaders' deepest fears and we don't hold

Frozen in time - we can't defeat the ice  
Holding the line - the politicians lie  
We're defeated by ice!

The enemy comes nearer  
And the tales that are being told  
Our leaders' deepest fears and we don't hold

Frozen in time - we can't defeat the ice  
Holding the line - the politicians lie

Frozen in time - we can't defeat the ice  
Holding the line - the politicians lie  
We're defeated by ice!  
We were blinded by lies!

Blinded by lies!
