

# Firewater, Knock 'Em Down

Well, I don't know where I am but I know my destination (3x)  
Knock 'em down, Christian soldiers, knock 'em down  
Well the devil likes his liquor and he smokes a big cigar (3x)  
But he's always been a real good friend of mine  
If there's a hell way down below, I bet you see someone you know (3x)  
And we'll all have a fucking good time

So knock 'em down, knock 'em down, another dead soldier hits the ground  
Because our time on earth is brief, we don't want no strife or grief  
So knock 'em down, knock 'em down, knock 'em down

If there's a heaven in the air, don't expect to see me there (3x)  
Knock 'em down, lords and ladies, knock 'em down  
Well I don't believe in god cause he don't believe in me (3x)  
And he never returns any of my calls (Repeat Chorus)

I don't believe in god cause he don't believe in me (3x)  
And he never returns any of my calls  
Well the earth just keep on spinning 'round as history repeats (3x)  
Knock 'em down, cocks and chickens, knock 'em down  
And I hope you all remember me when I'm in my grave (3x)  
Fill your glass, get off your ass, and knock 'em down

Knock 'em down, knock 'em down, knock 'em down
