

# Firewind, Fire

In the aftermath, everything will clear  
But the ones who stand, have no fear  
Can you feel the fire, that burns inside  
Can't live without it, it's something I can't deny

Living my life in fire, burning in sweet desire  
Want to get higher and higher, I don't mind the consequences  
Living my life in fire, burning in sweet desire  
Want to get higher and higher, I want to live forevermore

Burning fire, in my soul, flames grow higher  
More and more

We're running out of time, is there an answer  
Only the fire, remains, forever it burns  
My desire, it burns inside of me  
I can't live without it, it's something I just can't hide
