

# Firewind, Tyranny

We was sent to this world  
Now we see all the action  
The men in hate's lair  
Commanding all  
His statement to share

Nation free  
We're fighting for democracy  
Salvation, all we deserve  
We don't need tyranny  
Let's walk through our land of Eden

We were tortured and enslaved  
For their cruel satisfaction  
A bird flying in the air  
Killing us, our children not spared

Nation free  
We're fighting for democracy  
Salvation, all we deserve  
We don't need tyranny  
Let's walk through our land of Eden

-Solo-

Nation free  
We're fighting for democracy  
Salvation, all we deserve  
We don't need tyranny  
Let's walk through our land of Eden

Nation free  
We're fighting for democracy  
Salvation, all we deserve  
We don't need tyranny  
Let's walk through our land of Eden
