

# Fishbone, Housework

I feel like I go to work everyday  
But where I work I don't get paid  
Work in school and learnin' the supposed rule  
But in the street I make my own rules  
Mama, she just wanted me to do my homework  
But when I get home Mama left me a note

Do the housework

So when I'm done with my chores  
I go outside and learn some more

Wash 'em clothes, sweep that roof  
Cut that lawn, washing the dishes

So what are you trying to say?

Out in the street I got friends just like me  
Pops is gone and mom's workin' 5 and 6 days a week  
Me and my partners tryin' things just to see what it means  
A drink here and a smoke there, what was dirty now is clean  
Mama tryin' but she got to survive  
So now I got to get a 9 to 5

Do the housework...  
Ouch!
