

Five Finger Death Punch, A Little Bit Off

I am a little off today
Sun is down and something's different
Woke up a little off today
I can tell, that;s something's wrong

I am a little thrown off today
There's smething going on inside me
I am a little bit off today
I am a little bit off today
(I am a little bit off today)

See
I am a little bit off today
I cannot put my finger on it
Got up a little off today
I just play that sole old song
I don;t realu wanna track the day
I see nothing in my reflection
I am a little bit dry today
I feel like i die today
I am a little off today
I feel like i die today

you got to let it go!
