

# Five, My Song

So here's how it started  
It started with a beat  
A beat in my head  
And it wouldn't go away  
So I added a bass  
The bass was phat  
I played it to my boys on a 24 track  
They like that ah  
The hand clap followed by the mic  
Check  
No time for dinner  
Five's out on the night shift  
Shady eyes in the middle of the night  
Into the dawn till the lyrics lock tight  
On the mix tell the DJ  
Quick Five boom

Chorus:  
He kept playing my song  
On and on all night long  
(x2)

Rip it up everybody  
Rip it up one time  
Let me bring your rigidy rugged flow for your mind  
Got what you need now  
Let me break it down  
Five on the low  
With the funk for your town  
Down on the floor now  
Let me see you move  
This time tonight  
Now it's time to groove  
Who got the champion  
Sound understand  
Rhyme for rhyme  
Five on the low down

Get down (x6)

Check it

Chorus

Like I said before  
Got the funk for your trunk  
From the junk yard  
To the Boulevard  
Here we come ladies  
Lock tight  
Woo with that straight Five  
Dead right  
Party's over here we got  
The Five boom all night  
We made a hit  
Yet another home runner  
And sweet sugar J  
Got you hot like the summer  
So I'm a stepping back  
And let the DJ bust the mix Five  
Boom!

Get down (x14)

He kept playing my song all night long (x2)

Baby bounce

Let me see you bounce to this

I get the mic technique

To help you use your ears

So you it by the radio

Hands on the dial

Soon Five on the jam

Time to pump up the volume

Another fly track to get down

Let me see you move

Time for you to get down and prove it!

Ain't no doubt that we're fly

So don't deny

Chorus until fade
