

Flangers, Weapon

Inside it's cold
She sends me down
Will I begin to be someone else ?
And I say, and I say, and I say
"I beg you now!"

Wanna be someone
don't wanna be alone
for a better sight
Wanna be someone
Don't wanna care at all
Tonight

Down, I'm down I'm down
I am your goat
Now I begin to be someone else
Cause you tortures me
And you're killing me, and you kill me
I beg you now

I try to make things new
But I won't let my life blow you away
Until my dream comes true

I beg you now
Inside it's cold
I beg you now
I'm fucking cold
