

Flatt And Scruggs, No Mother In This World

I have no mother in this world no mother in my home
The place don't seem the same to me since mother she has gone
No mother in this world today no one to call my hand
No one here to care for me till we meet in the Promised land
[dobro]
I never shall forget the day my mother said farewell
How I miss her in this world no one but God can tell
No mother in this world...
