

Flexa Lyndo, Europe Slump

Are we feeling ok in Europe slump ?
Do we take the right way with Europe slump ?

We're playing offside
And we see it ok
We're playing offside
Do we take the right way ?

Votes that didn't count
Ratified by some voiceless deputees
The government has agreed
Smell of smoked weed from Berlin wall to Gaza Strip
But it sounds so bad
Like fake songs on the radio

Are we feeling ok ?

Down in Europe slump : are we living offside ?
But if the end is near
Let's drop the bombs
Give a cheer
But feelings are sour and weird
I see pictures of missing people
Spreading out a scent of waste
It's not fiction, it isn't lies
The fake songs on the radio
Betrayal, disgrace
Down the streets, the alleyways
Never ending sneer

Are we feeling ok in Europe slump ?
Do we take the right way ?
