

# Flip, Shapes

Open your eyes and tell me  
How long will you keep this life?  
Running behind the latest fashion  
Won't find salvation or be someone  
You worth more than we see  
You worth for what you've got inside  
If no one likes you here we are

It's not Ok  
It's not all right  
The shape is more  
Than what's inside

Let's face things it's so easy  
They all wanna be the trendiest one  
It's up to you to be the first one  
Or you can be the last  
End of a century ,a new millennium,  
Once and again over your mind  
It's up to you to follow them or not,  
Control your mind

A clear message, we shout it out  
A clear message, to save your soul
