

Fly To The Sky, Good To You

Even if I tell myself that right now, its not like before
Even if you forget me completely,
Even if I am just a person that just went by

Tonight is just one night
Just like before I lost you
My heart wants to find you again
Why is it lingering like this?

I cant accept myself without you

Tonight is just one night
Just like before I lost you

*Please listen to my heart just once

Everyday every night i am missing you

Even if you are not by my side,

Even if I cant see you now,

In my heart, you are always the same

My heart that wants you again,

Why is it lingering like this?

I cant actually realize that I dont have you

Tonight is just one night

Just like before I lost you

repeat *

I dont expect you to come back again

My heart is always trapped inside of yours

Please listen to my heart just once

(To me who cant see you)

Everyday everynight I am missing you

Even if you are not by my side

Even if I cant see you now,

My heart is always..

because Im loving you and missing you

repeat *

To me, you are always the same
