

Flyleaf, Light in Your Eyes

Pour the wine, light revives,
Lowering walls that divide
Kings and Queens yearn to seek
Love in all its mystery

When all we wanted was love
We got cut up and burned
But there's a light in your eyes
And it tells me that God is on our side

Waning moon, your sweet perfume,
Incense for the Holy ones
Secret hymns pour from your lips
Healing for this broken soul

We'd drive late, let the music tell our fates
For me this is heaven, drown our fears
We may age if we do not die today,
Until then we'll let this music be our prayers

When all we wanted was love
We got cut up and burned
But there's a light in your eyes
And it tells me that God is on our side

All we need now is love
We've been through enough
Can't run just 'cause you're scared
We've come this far
We're not giving up. /x4
